

FACILITY ADDITIONS, MODIFICATIONS AND SIGNAGE

It is the policy of the Regional School Unit-24 (RSU) Board (RSUB) that any permanent or semi-permanent addition and/or modification to any RSU building and/or grounds must have prior RSUB approval.

The RSUB also requires that temporary additions/modifications, and/or changes in the use of buildings, interior room(s), moving of any fixed interior equipment (i.e. lockers, bleachers, etc.) and interior room identification signage changes must have prior approval of the Superintendent, who will advise the RSUB, normally via e-mail.

The Superintendent will be consulted prior to any request for a study, planning, or assistance from an agency, company, or individual outside the RSU, for the purpose of planning a project concerning RSU facilities.
